July 2010

Entrepreneurship

The Entrepreneurship curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth as self-employed business owners.

Course work includes developing a student's ability to make informed decisions as future business owners. Courses include entrepreneurial concepts learned in innovation and creativity, business funding, and marketing. Additional course work includes computers and economics.

Note: HCC has an articulation agreement with Western Carolina University. This articulation agreement allows graduates of the HCC Entrepreneurship program to transfer 74-76 credit hours toward a Bachelor of Science in Entrepreneurship at WCU. Upon transfer to WCU, students from HCC must comply with all applicable Academic Regulations as listed in The Record, the WCU Undergraduate Catalog.

Through these skills, students will have a sound education base in entrepreneurship for lifelong learning. Graduates are prepared to be self-employed and open their own businesses.

Haywood Community College provides you with all the resources you need to start. The instructors are excellent, and the curriculum is presented to you in an easy to understand way. If you enjoy working with people and computers and are interested in business, Entrepreneurship could be the major you're looking for!

Entrepreneurship Associate A25490 Suggested Schedule 2010-2011
